### Sunday School Snap Chats

Many vehicles now contain three relatively new safety features. First is the lane departure system. This warns a driver when he crosses into another lane without a blinker. A second safety feature is lane-change assist technology, which warns a driver that a car is in his blind spot. Third is automatic braking technology, which warns the driver something has stopped in front of him. This may prevent an accident if the driver's attention is elsewhere.

Read 2 Peter 2:1-22, the book of Jude, and the commentary for Session 12 in the Personal Study Guide. As you read the passages, underline verses that indicate the content of false teaching. List any points you find in these verses that might describe the false teaching and why it was so dangerous.
