Steady erosion can eventually undermine a foundation, resulting in destruction. In the same way, erosion of respect for authority can undermine an institution, a business, a government, or a country. Authority is the right to influence or command another. The weight of authority is eroding in our society. Fewer and fewer people respect or even recognize authority. Many actively reject established authorities.

Read Matthew 21:23-32 and the Session 9 commentary in your *Personal Study Guide*. Note the frequency of the use of the word “authority” and jot down how the word is used in these verses.
